Prime Minister addresses Rozgar Mela... (Contd. from page 1)

products. This initiative will not only support millions of MSMEs and small entrepreneurs across the country but will also open up new employment opportunities nationwide", remarked the Prime Minister, adding that this is an unprecedented time of opportunities for India's youth. He noted that the IMF recently stated that India will remain the world's fastest-growing economy. He emphasized that this growth has multiple facets, with the most significant being the increase in job opportunities across all sectors in the coming days. The Prime Minister pointed out that in recent times, the automobile and footwear industries have achieved new records in production and exports, creating substantial employment opportunities for the youth. He also highlighted that, for the first time, products from Khadi and Village Industries have surpassed a turnover of Rs.1.70 lakh crore, generating millions of new jobs, especially in rural areas. He remarked on the recent achievement in Inland Water Transport, noting that before 2014, only 18 million tons of cargo were moved annually through Inland Water Transport. This year, cargo movement has exceeded 145 million tons. He attributed this success to India's consistent policy-making and decision-making in this direction. The Prime Minister highlighted that the number of National Waterways in the country has increased from just 5 to over 110 and the operational length of these waterways has grown from approximately 2,700 kilometers to nearly 5,000 kilometers. He stressed that these achievements are creating new opportunities for the vouth across the nation.

'Mumbai will soon host the World Audio Visual and Entertainment Summit (WAVES) 2025. This event places the youth at its core, providing young creators with such a platform for the first time. This summit offers an unprecedented opportunity for innovators in media, gaming, and entertainment to showcase their talent", said Shri Modi. He noted that entertainment startups will have the chance to connect with investors and industry leaders, making it the largest platform to present their ideas to the world. He emphasized that youth will gain exposure to AI, XR, and immersive media through various workshops organized during the event. "WAVES will energize India's digital content future", he added. He lauded the inclusivity of India's youth, highlighting that every section of society is contributing to the nation's achievements. He remarked that daughters of India are leading the way, citing the recent UPSC results where the top two positions were secured by women, and three out of the top five toppers were women. "Women are reaching new heights in fields ranging from bureaucracy to space and science. Our Government is focused on empowering rural women through initiatives like Self- He urged the youth to work for achieving the dreams Help Groups, Bima Sakhis, Bank Sakhis, and Krishi and aspirations of 140 crore Indians.

Sakhis, which have created new opportunities", said Shri Modi. He further noted that thousands of women are now working as Drone Didis, ensuring prosperity for their families and villages, adding that over 90 lakh Self-Help Groups are active in the country, involving more than 10 crore women. To strengthen these groups, the Government has increased their budget fivefold and introduced a provision for collateral-free loans of up to Rs.20 lakh. Shri Modi highlighted that women are the largest beneficiaries of the Mudra Yojana and noted that over 50,000 startups in the country have women as directors. He remarked that such transformative changes across sectors are strengthening India's resolve for development and creating more opportunities for employment and self-employment.

Addressing the youth who received their employment letters today, the Prime Minister underlined that the positions achieved by individuals are a result of their hard work and dedication. He stressed that it is now time to dedicate the next phases of their lives not only to themselves but also to the nation. He highlighted that the spirit of public service must remain paramount. The Prime Minister stated that when one works with the highest regard for their service, their efforts gain the strength to guide the nation in a new direction. He underscored that the fulfillment of duties, innovation, and commitment of individuals will directly contribute to improving the lives of every citizen in India.

Remarking that when individuals reach positions of responsibility, their duties and roles as citizens become even more significant, Shri Modi emphasized the need for awareness in this direction. He highlighted the ongoing campaign, 'Ek Ped Maa Ke Naam,' and encouraged everyone to plant a tree in their mother's name as a gesture of gratitude and service to nature. He urged individuals to involve more people in this campaign at their workplaces. Noting that the International Yoga Day, coming up in June, is a great opportunity to begin a healthy life alongside a successful career, he emphasized that health is not only essential for individuals but also crucial for work efficiency and the nation's productivity. The Prime Minister encouraged individuals to utilize the Mission Karmayogi initiative to enhance their capabilities. He stated that the purpose of their roles is not merely to hold positions but to serve every citizen of India and contribute to the nation's progress. Recalling the mantra of 'Nagrik Devo Bhava,' shared on Civil Services Day, and emphasizing that serving citizens is akin to divine worship, Shri Modi concluded by expressing confidence that with sincerity and dedication, India will become a developed and prosperous nation.

Mock Drill conducted by Disaster... (Contd. from page 1)

Administration, Police, Fire Services, Health Department and Electricity Department.

The drill was aimed at testing the preparedness and coordination among various emergency response agencies in the event of a real-life road accident. The simulated scenario involved a staged collision between STS Bus and Electric Pole, followed by mock injuries, crowd management, fire hazards, and power disruption.

Officials from the Resource Departments closely monitored the sequence of actions taken by each Department. The Police managed traffic and ensured security of the area, while the Fire Department demonstrated swift response in extinguishing the simulated fire. Health personnel provided on-the-spot medical aid and coordinated the mock evacuation of the injured to nearby hospitals. The Electricity Department played a crucial role in handling the mock power line disruption safely.

The observers of the drill appreciated the coordinated efforts of all Departments during debriefing session held in Govt. Middle School, Sippighat and emphasized the importance of such drills in building a robust disaster response system, a press release from Directorate of Disaster Management said.

India's Triumph in Combating Poverty

171 Million Lifted from Extreme Poverty in 10 Years, Says World Bank

New Delhi, Apr. 26 (PIB)

INTRODUCTION

In one of the most remarkable achievements of the past decade, India has lifted 171 million people out of extreme poverty. The World Bank acknowledges India's decisive fight against poverty in its Spring 2025 Poverty and Equity Brief. According to the report, the proportion of people living on less than 2.15 US dollars a day, which is the international benchmark for extreme poverty, fell sharply from 16.2 percent in 2011-12 to just 2.3 percent in 2022-23.

This achievement is a testament to the Government of India's commitment to inclusive development, focusing on both rural and urban areas. Through targeted welfare schemes, economic

reforms, and increased access to essential services, India has made substantial strides in reducing poverty levels. The World Bank's Spring 2025 Poverty and Equity Brief highlights how these efforts have significantly impacted the lives of millions, narrowing the poverty gap across the country.

Overview of the World Bank's Poverty and Equity Briefs (PEBs)

The Poverty and Equity Briefs (PEBs) from the World Bank highlight trends in poverty, shared prosperity, and inequality for over 100 developing countries. Published twice Poverty & Equity Brief

April 2025

a year for the Spring and Annual Meetings of the World Bank Group and the International Monetary Fund, these briefs offer a snapshot of a country's poverty and inequality context, ensuring poverty reduction remains a global priority. Each PEB includes a two-page summary that presents recent developments in poverty reduction, along with updated data on key development indicators.

India

These indicators cover various aspects of poverty, including rates of poverty and the total number of poor, using both national poverty lines and international benchmarks (\$2.15 for extreme poverty, \$3.65 for lower-middle-income, and \$6.85 for upper-middle-income). The briefs also include comparative trends in poverty and inequality over time and across countries, a multidimensional poverty measure that accounts for non-monetary deprivations like education and basic services, and inequality measurements using the Gini Index.

Rural and Urban Poverty Reduction

The World Bank's Poverty and Equity Brief for India finds that the sharp reduction in extreme poverty has been broad-based, covering both rural and urban areas.

Key findings:

- ⇒ In Rural areas, extreme poverty fell from 18.4 percent in 2011-12 to 2.8 percent in 2022-23.
- ⇒ In Urban centres, extreme poverty reduced from 10.7 percent to 1.1 percent over the same period.
- ⇒ The gap between rural and urban poverty shrunk from 7.7 percentage points to 1.7 percentage points, with an annual decline rate of 16

percent between 2011-12 and 2022-23.

Strong Gains at Lower-Middle-Income Poverty Line

The World Bank finds that India has made strong gains in reducing poverty at the lower-middle-income level, measured at 3.65 US dollars per day. Millions have benefited from this broad-based growth across both rural and urban areas.

Key findings:

⇒ India's poverty rate at the 3.65 dollars per day line fell from 61.8 percent in 2011-12 to 28.1 percent in 2022-23, lifting 378 million people out of poverty.

- Rural poverty declined from 69 percent to 32.5 percent, while urban poverty dropped from 43.5 percent to 17.2 percent.
- ⇒ The rural-urban poverty gap narrowed from 25 to 15 percentage points, with a 7 percent annual decline between 2011-12 and 2022-23.

Key States Contributing to Poverty Reduction

The report notes that significant progress has been made in reducing extreme poverty across India, with key states playing a vital role in both the decline of poverty and the advancement of inclusive development.

Key findings:

- ⇒ The five most populous states i.e. Uttar Pradesh, Maharashtra, Bihar, West Bengal, and Madhya Pradesh, represented 65 percent of India's extreme poor in 2011-12.
- ⇒ By 2022-23, these states contributed to two-thirds of the overall decline in extreme poverty.

Decline in Multidimensional Poverty and Revised Estimates

As per World Bank's report, India has made significant strides in reducing non-monetary poverty, and future poverty estimates are expected to change based on updated global standards.

Key findings:

- Non-monetary poverty, as measured by the Multidimensional Poverty Index (MPI), which considers factors like education, health, and living conditions, declined from 53.8 percent in 2005-06 to 16.4 percent by 2019-21.
- The World Bank's Multidimensional Poverty Measure stood at 15.5 percent in 2022-23, reflecting ongoing improvements in living conditions.
- ⇒ With revised international poverty lines (the minimum income needed to meet basic needs) and the adoption of 2021 Purchasing Power Parities (PPPs) (which

adjust for differences in living costs between countries), the new poverty rates for 2022-23 are expected to be 5.3 percent for extreme poverty and 23.9 percent for lower-middle-income poverty.

⇒ India's consumption-based Gini index improved from 28.8 in 2011-12 to 25.5 in 2022-23, indicating a reduction in income inequality.

Employment Growth and Shifts in Workforce Trends

India has witnessed positive trends in employment growth, particularly since 2021-22, with significant improvements in both rural and urban areas, as highlighted in the World Bank's report.

Key findings:

- Employment growth has outpaced the workingage population since 2021-22, with rising employment rates, especially among women.
- ⇒ Urban unemployment fell to 6.6 percent in Q1 FY24/25, the lowest since 2017-18.
- Recent data indicates a shift of male workers from rural to urban areas for the first time since 2018-19, while rural female employment in agriculture has grown.
- Self-employment has risen, particularly among rural workers and women, contributing to economic participation.

Conclusion

In conclusion, India has made remarkable progress in

Jobs Growing

poverty reduction over the past decade. The Spring 2025 World Bank's Poverty and Equity Brief highlights these achievements. It underscores the country's commitment to inclusive development. The sharp decline in both extreme and lower-middle-income poverty, along with the narrowing rural-urban poverty gap, reflects the effective efforts of the Government of India. Additionally, the rise in employment, especially among women, and the reduction in multidimensional poverty point to broader improvements in living standards. As India continues its journey, these achievements serve as a solid foundation for sustained progress in tackling poverty and inequality.
