Power supply disruption in South Andaman due to shortfall in generation capacity

Revised load shedding schedule issued; general public urged to conserve electricity

Sri Vijaya Puram, Aug. 7 - It is brought to the notice of General Public/All Govt. Departments /All Pvt. organizations that power supply scenario in South Andaman has worsened in past few months due to shortfall in generation capacity and has unfortunately become critical in the past few days due to the following reasons:

- > Closure of 5 MW NVVN Power Plant at Chatham to facilitate vacation of the site for the upcoming installation of a new 10 MW power plant at the same location- It was delivering 5.0 - 5.5 MW (approx.)
- > Forced breakdown of 02 Nos. DG sets of Hiring Power Plant at Bambooflat causing an additional shortage of 2.5 MW (approx.)
- > Less generation from Solar Power plants during day - average 6.0 MW.
- > Noticeable increase in power demand due to sudden rise in ambient temperature- 3.0 to 4.0 MW (approx.), depending on the weather condition.

> Adding to it during re-charging of feeders after load shedding there is a huge spike in demand due to inverter charging and simultaneous switching on of high power guzzlers and other equipments which creates additional requirement of - 3 MW (approx.)

Therefore, the grid is witnessing an overall demand more than as expected. This has led to a considerable shortage during day, evening and night hours.

In order to combat the situation, mobilization of resources for establishment of 10 MW new Hiring Power plant at Chatham is underway. In addition, all possible stop gap arrangements are being explored. These include drawing extra power from all existing

Andaman Administration invites EOI for helicopter services to 11 Islands

Sri Vijaya Puram, Aug 7 (PTI) - The Andaman and Nicobar Administration has invited expressions of interest (EOI) from Indian aviation companies for introduction of commercial helicopter services from Sri Vijaya Puram to 11 islands across the archipelago.

The helicopter service to 11 islands includes Shaheed Dweep, Swaraj Dweep, and the active volcano at Barren Island.

The EOI marks a key step in gauging market response and addressing operational logistics before proceeding to a formal tender, an official said.

The forthcoming Request for Proposal (RFP) - to be floated on a no-cost, no commitment (NCNC) basis - will ensure a transparent and competitive selection process for aviation operators, the official said.

Expression of Interest For Commercial helicopter services to tourist destinations in Andaman & Nicobar Islands

amenities, security screening, and a 32x29 metre hangar.

The terminal apron can simultaneously accommodate up to six helicopters, offering seamless operational capabilities for commercial services, the official said.

As per the plan, the Andaman and Nicobar Administration will serve as facilitator, providing access to helipads and supporting infrastructure, including waiting lounges, x-ray machines, and security arrangements.

Flight plans for the proposed operations will be coordinated through Air Traffic Control (ATC) services provided by the Indian Navy (INS Utkrosh), with fuelling support from Indian Oil

Major step towards strengthening rural healthcare infrastructure

New Medical Block at Dr. RP Hospital, Mayabunder - A game changer for Rural Healthcare in N&M Andaman

Mayabunder, Aug. 7 - In a significant stride towards strengthening healthcare infrastructure, the newly constructed building at RP Hospital was officially handed over last month. This marks a major milestone in the ongoing efforts of the District Administration, in coordination with APWD, Electricity Department, and the Directorate of Health Service aims to improve healthcare services in the region.

Under the guidance and leadership of Chief Secretary, Dr. Chandra Bhushan Kumar, IAS, Andaman & Nicobar Administration, the

new facility reaffirms the Administration's commitment to providing accessible, equitable and quality health care to rural population. "This new facility at Dr. RP Hospital is a testament to our continuous efforts to provide quality and

efficiency of medical care for the rural population of North and Middle Andaman. The facility has been thoughtfully planned to ensure that healthcare delivery is both comprehensive and patient-centric, with special focus on inclusivity and comfort.

The modern medical facility includes several specialized units. On the ground floor, there is a well-equipped Labour Room, Labour Ward, Post-Operative Ward, Special Newborn Care Unit (SNCU), Children's Unit (CU), and other Critical Departments. The facility includes specialist Obstetrics &

Duck Farming Training Program empowers rural women in Manglutan Panchayat

Sri Vijaya Puram, Aug. 7 - The Department of Animal Husbandry and Veterinary Services (AH&VS), A&N Administration, conducted a one-day training program on duck farming for rural women in Manglutan Panchayat today, aimed at empowering participants with scientific techniques and practical skills to enhance their livelihoods through sustainable poultry farming.

The comprehensive program covered key aspects of duck farming,

including breeding, nutrition, health management, and farm maintenance. Participants received hands-on training to manage duck farms efficiently, ensuring optimal productivity and profitability. Training materials and pamphlets were provided as valuable resources for future reference. All participants were registered and awarded certificates upon completion, recognizing their acquired expertise.

The program was graced by Shri Durlabh

Das, Panchayat Pradhan, who addressed the participants, highlighting duck farming as a viable livelihood option for rural women. He encouraged them to apply the skills and knowledge gained to improve their economic prospects and contribute to community development. The Senior Veterinary Officer of the Animal Husbandry Training Institute (AHTI) also spoke, emphasizing the

hired plants, rigorous monitoring on daily basis of repair and revival of two DG sets of hired power plant, increasing the generation from the existing solar power plants and also installation of Roof top solar plants to reduce the burden on the Grid power. In addition, the Electricity department has also appealed to the Govt. Departments and agencies to meet their own power requirements by operating their own stand by installations. This would further help in reducing the burden on the Grid power.

To mitigate the situation and to avoid any further mechanical breakdown of operational DG Sets, the Electricity Department was forced to carry out load shedding on a rotational basis in the Sri Vijaya Puram and South Andaman areas even during day and night beyond the published schedule. The load shedding schedule is being revised for day, evening and night in order to ensure that the public is well informed and can plan their activities accordingly.

The attached mentioned load shedding schedule is purely tentative and the duration & timing may vary depending on available power generation and other technical reasons. The schedule will be in place for a period of 15 days and if there is any significant development, general public shall be notified accordingly.

The Electricity Department in a press release has appealed to the consumers and general public to cooperate, conserve electricity and regulate their consumption to reduce the burden on grid power. The inconvenience caused is highly regretted.

Gynaecology and Paediatric services. These units are designed to cater to a wide spectrum of medical needs across different age groups and patient categories.

To further enhance patient's comfort and convenience, the new building is equipped with a spacious waiting hall and attached toilets in every ward, promoting hygiene and ensuring a more dignified patient experience. The facility is designed with accessibility in mind, featuring both a lift and staircases to enable seamless movement for patients, attendants, and healthcare staff across all floors.

The first floor accommodates the male, female, and paediatric wards, along with designated rooms for Auxiliary Nurse Midwives (ANMs). The second floor houses the Integrated Public Health Laboratory (IPL), further expanding the diagnostic and testing capabilities of the hospital as part of the overall infrastructure enhancement.

Overall, this upgraded infrastructure marks a significant leap toward improved healthcare delivery and is expected to play a pivotal role in ensuring better, faster, and more accessible medical services for the people of the district, a press release received from District Health Society, N&M Andaman said.

Importantly, the model is designed as a fully commercial venture-no government subsidies or Viability Gap Funding (VGF) will be extended. Operators will bear full responsibility for aircraft, crew, passenger safety, insurance, and liabilities, in line with standard aviation regulations.

In 2024, the Andaman and Nicobar Islands witnessed over 72,000 tourists, reflecting a steady upward trend in visitor numbers. In response to this growth, Veer Savarkar International Airport commissioned a state-of-the-art integrated terminal in 2023, with capacity to handle 1,200 passengers per hour or up to 5 million travellers annually.

Further strengthening aviation readiness, the administration has already developed 19 helipads, 12 of which are strategically located in key tourist destinations. The region is currently home to around 600 hospitality businesses, with luxury resorts and boutique villas in various stages of development.

Presently, seven private cruise vessels with capacities of about 300 passengers each operate daily trips to Swaraj Dweep and Shaheed Dweep, while other islands are solely dependent on government ferries.

The new helicopter services aim to bridge this gap, offering faster, more flexible travel options for tourists, locals, and emergency operations, a senior official said. (Source: THE WEEK based on inputs from PTI)
