Union Home Minister and Minister of Cooperation, Shri Amit Shah...

direction. Shri Shah said that between 2004 and 2014, 3.63 lakh kilograms of drugs were seized, which increased sevenfold to 24 lakh kilograms in 10 years from 2014 to 2024, which is a huge achievement. It is an example that the public, the courts, and the entire ecosystem, down to the grassroots level, are responding positively to our efforts. He said, the value of drugs destroyed in the 10 years between 2004 and 2014 was Rs 8,150 crore, which has increased seven-fold to Rs 56,861 crore in the last 10 years. The Home Minister said that this should not be interpreted as an increase in drug usage, but rather that action is now being taken and results are being achieved. He stated that the Modi Government has worked at a rapid pace to destroy drugs, uncover the networks, and bring the entire ecosystem under the grip of the law.

Shri Amit Shah said that we have made several changes in investigations, not only exposing drugs but also uncovering the terrorism networks associated with them. The local Police of Jammu & Kashmir, Punjab, Gujarat, and Uttar Pradesh, along with Central Agencies, have uncovered several cases of narco-terrorism. He mentioned that instead of being satisfied with these successes, we need to work with even more speed and enthusiasm. Shri Shah stated that the use of the dark web, crypto-currency, online marketplaces, and drones continues to pose a challenge for us. He said that all Agencies should strengthen the resolve for a drug-free India by stopping drug smuggling through the dark web, crypto-currency, and drones.

Union Home Minister and Minister of Cooperation said that the Modi Government has changed its approach against drugs since 2019. He mentioned that the Modi Government is moving forward with a ruthless approach against the drug supply chain, a strategic approach for demand reduction, and a human approach for the victims. He also stated that we need to increase the use of PIT-NDPS (Prevention of Illicit Trafficking in Narcotic Drugs and Psychotropic Substances Act). He emphasized the need to strategically and cautiously expand the use of legal provisions for asset confiscation. Shri Amit Shah also urged States to take proactive steps to enhance the capacity of Forensic Labs (FSL) instead of relying solely on the Centre for support.

Shri Amit Shah stressed upon the importance of investigating drug cases using both 'top-to-bottom' and 'bottom-to-top' approaches. He highlighted that no narcotics case should be treated as an isolated incident, and investigations must continue until the entire network behind it is uncovered. He urged that each case should be seen as an opportunity to dismantle a broader network, ensuring the fight against drugs reaches its logical conclusion. Shri Shah emphasized the critical role of financial investigations in tackling the drug trade, including seizing properties linked to illicit activities. He stated that no major case should be concluded without a thorough financial investigation.

Shri Amit Shah underscored the importance of incorporating geo-tagging, time stamping, and videography during seizures to ensure greater success in combating the menace of drugs. He also highlighted the Government of India's efforts to develop an anti-drone system, urging the Police Forces of all border States to support this initiative by organizing hackathons and actively contributing to advancements in this area.

Union Home Minister and Minister of Cooperation, Shri Amit Shah said that a public movement and awareness against drugs are also important, and the Education Department, Social Welfare Department, and Health Department should also work with promptness.

The Home Minister said that everyone should join the 'Nasha Mukh Bharat' campaign with sensitivity and depth of heart and take a pledge that neither will we allow drugs to come into the country nor will we allow them to go for illegal sale anywhere outside our country and we will all work together to make India drug-free.
