PM takes charge of Prime Minister's Office

'Together, we will achieve the target of 'Nation First' with the intention of Viksit Bharat 2047': PM

New Delhi, June 10 (PIB)

The Prime Minister, Shri Narendra Modi has taken charge of the Prime Minister's Office today. Addressing the officers and staff of the Prime Minister's Office, Shri Modi asserted that it has been an endeavour to make the PMO an institution of service and the People's PMO from the very beginning. "We have tried to develop the PMO as a catalytic agent which becomes a source of new energy and inspiration", the Prime Minister said. Prime Minister Shri Modi said that the Government means new energy of strength, dedication and resolve and expressed confidence that the PMO is primed to serve the people with dedication. He highlighted that it is not Modi alone who runs the government but thousands of minds that come together and shoulder the responsibilities, and as a result, it is the citizens who become witnesses to the magnificence of its abilities.

Shri Modi underlined that the people who belong to his team

have no time constraints, limits to thinking or any set benchmarks for effort. "Entire nation has faith in this team", the Prime Minister said.

The Prime Minister took the opportunity to thank those who have been a part of his team and also exhorted those who wish to join and become a part of the journey of Viksit Bharat for the next 5 years and dedicate themselves to nation-building. "Together, we will achieve the target of 'Nation First' with one

intention of Viksit Bharat 2047", the Prime Minister said. He also reiterated that his every moment belongs to the nation.

Prime Minister, Shri Modi explained that the combination of desire and stability makes for determination while success is achieved when determination is complemented by hard work. He further added that if one's wish is stable, it takes the form of a resolution whereas a wish that constantly takes new forms is merely a wave.

PM Shri Modi highlighted that the prerequisites of success are clarity of thought, faith in conviction and character to act. "If we have these three things, then I don't believe failure will be anywhere near", he added.

The Prime Minister credited the employees of the Government of India who dedicated themselves to a vision and said that they deserve a huge share in the government's achievements. "These elections put a stamp of approval on the efforts of government employees", PM Shri Modi said. He encouraged the team to develop new ideas and boost the scale of the work being done. The Prime Minister concluded the address by throwing light on the secret of his energy and said that a successful person is one that keeps the student within him alive.

A&N Police issues public advisory on infostealers via fake keygens and cracks

Port Blair, June 10

Information stealer or infostealer is a malware that is designed to gather information from a system, such as data relating to passwords, browser auto fill information, browser cookies, crypto wallets, and credit cards, which is sent to attackers system. A surge in number of cybercrimes involving infostealers has been noticed. The Infostealer malware is often distributed disguised as cracks and keygens of various unofficially downloaded programs. Which are used by cybercriminals to spread malware. Infostealers usually operate as malware-as-a-service (Maas), a business model in which the developers of malicious software lease their malware to others for a fee. • Cybercriminals bundle malware with key generators and software cracks and make it available at various dubious sources, such as freeware download websites, free file hosting websites, peer-to-peer (P2P) networks, etc. In some

cases, these tools are proliferated together with chosen software installation setups.

• Victims download these malicious software cracks and fake keygens to activate licenses for third-party software.

• Once the infostealer is executed by victims on their systems, sensitive information saved on the systems is collected and sent to a C2 server controlled by attackers.

• Infostealer attacks are typically financially motivated. The stolen data is analyzed, and valuable information is organized into a database, which can then be sold on the dark web or through private social media channels.

• The information is then used to commit various types of fraud, such as applying for bank loans or credit cards, purchasing items online, or making fraudulent health insurance claims, etc.

In this regard, Andaman and Nicobar Police has issued the following advisory to safeguard the

citizens against infostealers.

➤ Avoid downloading pirated software (and software cracks) from unverified sites and activating the software using any third-party key generators.

➤ Do not trust sources that promise free installation of software with premium features.

➤ Download software from official sources only, check legitimacy of the website before downloading.

➤ Keep your devices secured using a reputed antivirus and/or anti-malware solutions.

➤ Regularly update your browser, operating system, and other applications.

➤ Report any such incidents on the cybercrime.gov.in portal and follow @CyberDost on Twitter, YouTube, Facebook, Instagram, Public, Koo and LinkedIn to know more about safety tips.
