Weather Report

Indian Oil to supply LNG to NTPC's upcoming 50 MW power plant in Andaman & Nicobar

India's largest power major NTPC is in the process of acquiring land for the proposed plant. The 50 megawatt (MW) gas-based power plant in Andaman & Nicobar is expected to be commissioned by 2027-28, sources told Moneycontrol.

State-run Indian Oil Corporation (IOC) would supply liquefied natural gas (LNG) to Andaman & Nicobar Islands' first gas-based power plant, to be set up by state-owned NTPC, the oil marketing company told Moneycontrol.

"Indian Oil is working with stakeholders to develop LNG infrastructure for NTPC's proposed power plants in South Andaman and Great Nicobar. With established presence in the region, IOCL is well positioned to support this initiative," a company official said.

NTPC, India's largest power producer, is setting up a 50 megawatt (MW) gas-based power plant in Andaman & Nicobar, for which Prime Minister, Shri Narendra Modi had laid the foundation stone in December 2018.

Currently, NTPC is in the process of acquiring land in Andaman & Nicobar Islands for the proposed power plant expected to be commissioned by 2027-28, one government official told Moneycontrol on condition of anonymity.

"The company (NTPC) is looking for land currently. It is in talks with the concerned (g o v e r n m e n t) organisations. The plant is expected to be commissioned by 2027-28," the official said.

The Andaman & Nicobar Islands are entirely powered by diesel, and a gas-based power plant would be a move towards India's larger goal of energy sustainability. The government aims to increase the share of natural gas in the country's energy basket to 15 percent by 2030, from current 6 percent.

"The new gas-based power plant will replace diesel use for power generation in the main island, supporting cleaner energy goals. IOCL will continue to meet diesel needs elsewhere in the islands. IOCL will continue fulfilling HSD (high speed diesel) requirements across the islands during this transition," said Indian Oil.

The company added

TOURISM DEPARTMENT
ANDAMAN AND NICOBAR ADMINISTRATION

Sri Vijaya Puram, June 18

As part of the on-going series of events, the Tourism Department is organizing a 'Beach Yoga Festival' on 21st June, 2025 with the theme 'Yoga for One Earth, One Health'. The festival will take place at popular beaches across the Islands in collaboration with the respective Deputy Commissioners of South Andaman, North & Middle Andaman, and Nicobar Districts, along with all line Departments.

A mass yoga session, following the Common Yoga Protocol, will be conducted simultaneously across all identified beaches, accompanied by expert talks on the theme 'Interlinking Climate, Health, and Wellness'. At Corbyn's Cove Beach, in addition to the above activities, yoga competitions - comprising Asanas, Pranayama, and Kriya- will be organized, encouraging participation from various age groups. Winners of these competitions will be suitably awarded by the Department. The session will commence at 7 am onwards.

Participants who are regularly practicing yoga have been requested to bring their own mats and accessories. The Department has invited tourists, youth, and members of the general public to actively participate in this enriching event and to assemble at the designated locations on

Viksit Krishi Sankalp Abhiyan implemented successfully across A&N Islands

Sri Vijaya Puram, June 18

As part of the nationwide Pre-Kharif initiative, the Viksit Krishi Sankalp Abhiyan (VKSA) was launched across Andaman and Nicobar Islands on 29th May, 2025, following a preparatory meeting chaired by the Chief Secretary, A&N Administration. The campaign, aimed at empowering farmers through awareness on central agricultural schemes and sustainable practices, concluded successfully on 12th June, 2025, marking a significant milestone in grassroots agricultural outreach.

The Chief Secretary had earlier emphasized the importance of clear communication of Government schemes, active dissemination of modern agricultural innovations, and participation of PRI members and Departmental officers. Departments were instructed to maintain detailed documentation, structured feedback systems, and standardized Gram Panchayat-wise reporting for authenticity and accountability. The VKSA campaign witnessed enthusiastic participation from farmers across all zones, including remote and interior areas. On the inaugural day, A&N Islands ranked 4th at the national level in farmer participation percentage, reflecting the overwhelming response from the local farming community.

A major attraction of the campaign was the

members and Departmental officers. Departments were instructed to maintain detailed documentation, structured feedback systems, and standardized Gram Panchayat-wise reporting for authenticity and accountability. The VKSA

campaign witnessed enthusiastic participation from farmers across all zones, including remote and interior areas. On the inaugural day, A&N Islands ranked 4th at the national level in farmer participation percentage, reflecting the overwhelming response from the local farming community.

A major attraction of the campaign was the

District Administration, SA evicts unauthorized encroachment and restores Govt. land at Garacharma

Sri Vijaya Puram, June 18

In its continued efforts to safeguard Government land from illegal occupation, the Revenue Department of South Andaman carried out a focused eviction operation today at Garacharma village.

During the inspection, an unauthorized encroachment in the form of a temporary structure along with fencing was identified over Government land. The structure was in clear violation of land regulations.

Acting promptly, the team mobilized necessary manpower and machinery, to remove the illegal structures and as a result of the drive, an area measuring approximately 0.04 hectares was successfully cleared and restored to the Government Khata. The eviction was carried out in a peaceful and orderly manner, ensuring that the land was freed from encroachment and brought back under the

official revenue record.

The District Administration, South Andaman has once again reiterated its zero-tolerance policy against encroachment of Government land. Citizens have been urged to refrain from occupying public land illegally and have been encouraged to cooperate

SVPMC mandates installation of commercial water meters and replacement of non-functional meters

Sri Vijaya Puram, June 18

All Departments, Hoteliers, Restaurant & Bar Owners and the general public availing commercial water connections have been informed that installation of commercial water meters is mandatory for all the premises where meters have not yet been installed.

Further, all non-functional or defective commercial water meters must be replaced within 15 days from the date of issuance of this notice.

All concerned have also been requested to ensure timely payment of commercial water charges. Bills can be downloaded from the official portal: <https://pbmc.gov.in>. Non-compliance within the stipulated time frame shall attract necessary action by the SVPMC as per the prevailing rules, a press release from SVPMC said.

Fisheries Deptt. in association with NETFISH-MPEDA, Chennai organize Training prog. on 'Capacity Building on Hygienic and Sanitary Procedures' at Car Nicobar

Car Nicobar, June 18

The Department of Fisheries, A&N Administration in collaboration with NETFISH-MPEDA, Chennai conducted a one-day training programme on 'Capacity Building on Hygienic and Sanitary Procedures' for ST community at Car Nicobar. The programme was graced by Shri Lionald Nicomed, Chairman, Tribal Council, Car Nicobar as the chief guest while Shri Martin Luther, Secretary, CTC was the guest of honour. Shri Paul David, 1st Captain of Perka Village, Dr. Arulmoorthy, State Coordinator, NETFISH-MPEDA, Chennai, along with officials from the Department of Fisheries were also present on the occasion.

Speaking on the occasion, the chief guest, lauded the efforts of the Department of Fisheries and NETFISH-MPEDA in empowering the local fisher community through such meaningful initiatives. He emphasized the importance of adopting hygienic practices to increase income levels and access better market opportunities.

Shri Martin Luther emphasized that this effort greatly enhanced the effectiveness of the training by breaking language barriers and ensuring that the critical concepts related to capacity building on hygienic and sanitary procedures were clearly understood by the local fisherfolk.

Smti V. Sheeja, Deputy Director, Car Nicobar, while welcoming the gathering, informed that the programme was aimed at creating awareness among fishers about the importance of hygienic handling and maintaining sanitary practices at every stage from catch to consumption.

Dr. Arulmoorthy said, the training programme was designed to provide both theoretical insights and hands-on practical exposure to the participants.

The technical

that it has adequate LNG supply for the proposed gas-based power plant as Indian Oil has strengthened its portfolio through long-term international tie-ups.

Indian Oil operations in Andaman & Nicobar

Indian Oil is the sole provider of petroleum products including diesel, petrol, LSHFSD (low sulphur high flash high speed diesel - a grade of diesel used by Indian Navy ships, aviation turbine fuel (ATF) and liquefied petroleum gas (LPG) in Andaman & Nicobar Islands. Other state-run OMCs including Bharat Petroleum (BPCL) and Hindustan Petroleum (HPCL) do not have operations in the area.

The fuel consumption in the island has been rising over the last five years and is expected to grow further, according to Indian Oil statistics.

Diesel is the most-consumed petroleum product on the island, used for generating electricity, and saw a year-on-year demand growth of 1.41 percent in 2024-25, with consumption rising to 1.43 lakh KL during the last fiscal. Andaman & Nicobar's electricity accounts for approximately 70 percent of the terminal's diesel volumes. Petrol and LSHF HSD demand grew by 6 percent and 24 percent, respectively, while ATF demand fell by 5.43 percent in FY25 from the previous year. IOC also has an LPG bottling plant on the island with a capacity of 15 thousand metric tonne per annum (TMTPA). LPG consumption grew by 3 percent year-on-year in FY25 at 12,731 metric tonnes (MT), showed Indian Oil data. (This news article was published by moneycontrol.com on June 17, 2025)

World Hypertension Day & Anti-Malaria Month observed at HWC, Champin

Nancowry, June 18 The Community Health Centre, Nancowry observed World Hypertension Day with awareness activities echoing this year's global theme: 'Measure your blood pressure accurately, control it, live longer'. Dr. Shabnam Salim, Medical Officer

(H o m e o p a t h y), emphasized on the importance of regular blood pressure monitoring, adherence to prescribed medication, and lifestyle modifications. The community was also advised to follow up with treatment to prevent severe complications like heart

attacks and strokes. In conjunction with this, Anti-Malaria Month was also observed. Participants were educated about preventive measures against mosquito-borne diseases. They were advised to use mosquito nets while sleeping, a press release from CHC Nancowie said.

Viksit Krishi Sankalp Abhiyan implemented

(Contd. from page 1)

Krishi Rath, flagged off at Chouldari village, South Andaman. The Rath traversed across rural and far-flung areas, spreading awareness via banners, audio messages, and direct farmer interaction.

In alignment with the 'Ek Ped Maa Ke Naam' initiative linked to World Environment Day, the campaign saw the planting of 569 fruit-bearing plants in SHG locations, Anganwadi Centres, and other Government Offices, symbolizing environmental commitment and emotional connect. Over the 15-day campaign, a total of 194 events and awareness camps including nukkad natak, sports meets, and evening chaupals were organized. These

engaged 25,581 participants, including farmers, fishermen and women Self-Help Groups (SHGs). Notably, Departmental officials and Krishi Vigyan Kendras (KVKs) extended the campaign to remote regions like the Nancowrie group of Islands, often traveling by boat to ensure no farmer was left behind.

The District officials, including Deputy Commissioners and Assistant Commissioners, conducted regular field visits, while district-wise news were covered through press releases. The campaign also placed strong emphasis on real-time feedback collection, documentation of best practices, and challenges faced by the farming community.

The Viksit Krishi Sankalp Abhiyan has reaffirmed Andaman and Nicobar Islands' dedication to sustainable and inclusive agricultural development and stands as a replicable model for effective grassroots campaign execution toward a Viksit Bharat, a press release from Agri. Deptt. said.

Monsoon preparedness regarding dangerous trees & landslide risks in South Andaman

Sri Vijaya Puram, June 18 With the onset of monsoon, the District Administration, South Andaman, has urged the residents of the District to remain vigilant regarding potential hazards such as dangerous trees and landslide.

For reporting any such emergencies,

citizens may contact the South Andaman District Control Room at 1077. These numbers are available 24/7 for immediate assistance during emergencies. In preparation for the monsoon season, the District Administration has implemented several measures to mitigate risks

associated with dangerous trees and landslides. Residents have been encouraged to stay informed about weather forecasts and adhere to safety guidelines provided by local authorities, a press release from Assistant Commissioner(R&DM)/SDM(SA) said.

OBSERVANCE OF ANTI-MALARIA MONTH - JUNE 2025
"MALARIA ENDS WITH US: REINVEST, REIMAGINE, REIGNITE"

MALARIA मलेरिया

Life Cycle of Malaria Parasite

1. The parasite enters the blood and multiplies within the red blood cells. When infected cells burst, they release more parasites into the bloodstream.

2. The parasites enter the liver and multiply within the liver cells. When infected cells burst, they release more parasites into the bloodstream.

3. The parasites enter the bloodstream and travel to the spleen, where they are destroyed.

4. The parasites enter the bloodstream and travel to the bone marrow, where they are destroyed.

5. The parasites enter the bloodstream and travel to the brain, where they are destroyed.

6. The parasites enter the bloodstream and travel to the lungs, where they are destroyed.

7. The parasites enter the bloodstream and travel to the heart, where they are destroyed.

8. The parasites enter the bloodstream and travel to the kidneys, where they are destroyed.

9. The parasites enter the bloodstream and travel to the stomach, where they are destroyed.

10. The parasites enter the bloodstream and travel to the intestines, where they are destroyed.

11. The parasites enter the bloodstream and travel to the bladder, where they are destroyed.

12. The parasites enter the bloodstream and travel to the rectum, where they are destroyed.

13. The parasites enter the bloodstream and travel to the anus, where they are destroyed.

14. The parasites enter the bloodstream and travel to the vagina, where they are destroyed.

15. The parasites enter the bloodstream and travel to the penis, where they are destroyed.

16. The parasites enter the bloodstream and travel to the testis, where they are destroyed.

17. The parasites enter the bloodstream and travel to the prostate, where they are destroyed.

18. The parasites enter the bloodstream and travel to the urethra, where they are destroyed.

19. The parasites enter the bloodstream and travel to the bladder, where they are destroyed.

20. The parasites enter the bloodstream and travel to the rectum, where they are destroyed.

21. The parasites enter the bloodstream and travel to the anus, where they are destroyed.

22. The parasites enter the bloodstream and travel to the vagina, where they are destroyed.

23. The parasites enter the bloodstream and travel to the penis, where they are destroyed.

24. The parasites enter the bloodstream and travel to the testis, where they are destroyed.

25. The parasites enter the bloodstream and travel to the prostate, where they are destroyed.

26. The parasites enter the bloodstream and travel to the urethra, where they are destroyed.

27. The parasites enter the bloodstream and travel to the bladder, where they are destroyed.

28. The parasites enter the bloodstream and travel to the rectum, where they are destroyed.

29. The parasites enter the bloodstream and travel to the anus, where they are destroyed.

30. The parasites enter the bloodstream and travel to the vagina, where they are destroyed.

31. The parasites enter the bloodstream and travel to the penis, where they are destroyed.

32. The parasites enter the bloodstream and travel to the testis, where they are destroyed.

33. The parasites enter the bloodstream and travel to the prostate, where they are destroyed.

34. The parasites enter the bloodstream and travel to the urethra, where they are destroyed.

35. The parasites enter the bloodstream and travel to the bladder, where they are destroyed.

36. The parasites enter the bloodstream and travel to the rectum, where they are destroyed.

37. The parasites enter the bloodstream and travel to the anus, where they are destroyed.

38. The parasites enter the bloodstream and travel to the vagina, where they are destroyed.

39. The parasites enter the bloodstream and travel to the penis, where they are destroyed.

40. The parasites enter the bloodstream and travel to the testis, where they are destroyed.

41. The parasites enter the bloodstream and travel to the prostate, where they are destroyed.

42. The parasites enter the bloodstream and travel to the urethra, where they are destroyed.

43. The parasites enter the bloodstream and travel to the bladder, where they are destroyed.

44. The parasites enter the bloodstream and travel to the rectum, where they are destroyed.

45. The parasites enter the bloodstream and travel to the anus, where they are destroyed.

46. The parasites enter the bloodstream and travel to the vagina, where they are destroyed.

47. The parasites enter the bloodstream and travel to the penis, where they are destroyed.

48. The parasites enter the bloodstream and travel to the testis, where they are destroyed.

NOTICE

Under the instruction and on behalf of my client Smti. Khurshid Sharma, W/o Dr. Shambu Sharma, D/o Late Imtiaz Ali, R/o Dollygunj Junction, Sri Vijaya Puram inform the public in general that my client has filed a suit for partition of the land bearing Sy. No. 249/1, area measuring 1000 Sq. ft situated at Junglighat Village, Sri Vijaya Puram, South Andaman bearing Title Suit No.119 of 2024 (Smti. Khurshid Sharma vs. Smt. Lata Riaz & Ors.) before the Hon'ble Civil Judge, Senior Division at Sri Vijaya Puram and there is a stay order by the Hon'ble Court to maintain Status Quo and not to make any construction over the suit property or to alienate the suit property.

That it came to the knowledge of my client that despite there being a stay order, the defendants namely Smti. Lata Riaz W/o Late Riaz Ali, Shri Sahil Riaz, S/o Late Riaz Ali, Shri Sabir Riaz, S/o Late Riaz Ali and Shri Shajid Riaz, Late Riaz Ali are trying to enter into a sale transaction with Shri Lakshan Chandra Bera running a shop in the name and style of “LAXMAN BERA CYCLE SPARE PARTS AND REPAIRING” being a third party.

It is, therefore, through this Public Notice informed that if the stay order is violated with respect to land bearing Sy. No. 249/1, area measuring 1000 Sq. Ft situated at Junglighat Village, Sri Vijaya Puram, South Andaman; legal action will be taken against the above-mentioned person before the Court of Law.

Vishal Kumar Biswas, B.A.LLB., LL.M.
Advocate
Calcutta High Court District & Sessions Court
Port Blair, Andaman & Nicobar Islands.
